PURPOSE OF REPORT:

Council to consider leasing Lots 41 & 42 Roberts Street Moora for the purpose of developing a nature playground.

BACKGROUND:

Anglican Church Diocese of Perth (ACDP) have agreed to conditionally offer Council the said land for an initial lease period of 10 years with an option for a further 10 years for the purpose a developing a nature playground.

COMMENT:

In 2017 Council was approached by a local group of young families to consider procuring suitable land to develop a nature playground. Lots 41 and 42 Roberts Street, Moora were identified as being a suitable location.

The author is of the view that an initial term of two years should be agreed to which would allow time for design/costings/funding to be put in place. Should the project get the go ahead, at that juncture it would then be prudent to enter into a longer term lease.

ATTACHMENTS: Shire of Moora Budget Review 2017/18

PURPOSE OF REPORT:

To adopt the budget review for the period 1 July 2017 to 31 January 2018

BACKGROUND:

Local Governments are required to formally conduct a budget review at least once each financial year, between 1 January and 31 March. The budget review allows a detailed comparison of the year to date (YTD) actual results with the adopted or amended budget.

The budget review is to be submitted to Council within 30 days of the review for Council to consider and determine whether or not to adopt the review and any recommendations made within the review.

A copy of the review and Council decision is to be provided to the Department of Local Government and Regional Development within 30 days of the decision by Council.

COMMENT:

The budget review for the period 1 July 2017 to 31 January 2018 has been conducted by management and is provided as a separate attachment to this agenda.

A number of changes to the budget are recommended as part of this budget review to recognise grants that were not received, savings achieved, projects that cannot be achieved this financial year and changes requested by Council.

All budget amendments are shown in the attached Budget Review 2017/18 document.

The proposed Amended Budget estimates a deficit balance at 30 June 2018 of (\$102,432).

POLICY REQUIREMENTS:

9.3.1 PROPOSED PERMANENT ROAD CLOSURE – ORTON ROAD

OFFICER DISCLOSURE OF INTEREST: Nil

PREVIOUS MEETING REFERENCES: Nil

AUTHOR: John Greay, Manager Engineering Services

ATTACHMENTS: Correspondence from Mr David Glasfurd

Photos of (part of) unmade Orton Road

Correspondence from Mr Andrew Nixon

PURPOSE OF REPORT:

Council to consider the permanent closure of Orton Road – Part of (refer to map)

BACKGROUND:

Council received a letter from Mr David Glasfurd on the 5th April 2017 requesting consideration for the closure of part of Orton Road, south of the Midlands Road which is a gazetted but unmade road.

Mr Glasfurd has expressed a concern regarding the bio security of his property should the road remain available to the public even though there is no access-way through or along the gazetted road. Mr Glasfurd has constructed his own internal farm road adjacent to the gazetted road which allows him to access and service his property.

COMMENT:

The road is not constructed within the road reserve and extensive clearing would be required to build a road within the reserve. I would expect that the Department of Environmental Regulations would not approve should an application be put forward.

Council has advertised the proposed road closure in the West Australian newspaper dated Wednesday 22nd November 2017 – see attached cutting. At the time of closing on the 22nd December 2017 council had not received any objections or queries. Since then, on the 1st February 2018 we have received an objection – refer attached correspondence.

The author is of the opinion that to permanently close Orton Road and have the subject land merged with the adjacent farm land with the proviso that the area be fenced off and not cleared and retained will help preserve a small portion of remnant vegetation. The neighbours who state that they wish to access the road reserve to enter their properties may need to discuss the option of using Mr Glasfurd's already constructed road. It would appear that no farming lots are land locked as they all front onto existing made roads.

POLICY REQUIREMENTS:

Council does not have a policy relevant to this matter. It maybe that a policy be developed, however the merits of individual cases/situations would make it difficult to develop a policy that would have a broad and practical application. The author is of the view that individual cases be considered on their merit.

LEGISLATIVE REQUIREMENTS:

Refer to legislation hereunder;

Land Administration Act 1997 – Section 58**58. Closing roads**

- (1) When a local government wishes a road in its district to be closed permanently, the local government may, subject to subsection (3), request the Minister to close the road.
- (2) When a local government resolves to make a request under subsection (1), the local government must in accordance with the regulations prepare and deliver the request to the Minister.
- (3) A local government must not resolve to make a request under subsection (1) until a period of 35 days has elapsed from the publication in a newspaper circulating in its district of notice of motion for that resolution, and the local government has considered any objections made to it within that period concerning the proposals set out in that notice.
- (4) On receiving a request delivered to him or her under subsection (2), the Minister may, if he or she is satisfied that the relevant local government has complied with the requirements of subsections (2) and (3) —
 - (a) by order grant the request; or
 - (b) direct the relevant local government to reconsider the request, having regard to such matters as he or she thinks fit to mention in that direction; or
 - (c) refuse the request.
- (5) If the Minister grants a request under subsection (4) —
 - (a) the road concerned is closed on and from the day on which the relevant order is registered; and
 - (b) any rights suspended under section 55(3)(a) cease to be so suspended.
- (6) When a road is closed under this section, the land comprising the former road —
 - (a) becomes unallocated Crown land; or
 - (b) if a lease continues to subsist in that land by virtue of section 57(2), remains Crown land.

Land Administration Regulations 1998**9. Local government request to close road permanently (Act s. 58(2)), requirements for**

For the purposes of preparing and delivering under section 58(2) of the Act a request to the Minister to close a road permanently, a local government must include with the request —

- (a) written confirmation that the local government has resolved to make the request, details of the date when the relevant resolution was passed and any other information relating to that resolution that the Minister may require; and
- (b) sketch plans showing the location of the road and the proposed future disposition of the land comprising the road after it has been closed; and
- (c) copies of any submissions relating to the request that, after complying with the requirement to publish the relevant notice of motion under section 58(3) of the Act,

- the local government has received, and the local government's comments on those submissions; and
- (d) a copy of the relevant notice of motion referred to in paragraph (c); and
 - (e) any other information the local government considers relevant to the Minister's consideration of the request; and
 - (f) written confirmation that the local government has complied with section 58(2) and (3) of the Act.

STRATEGIC IMPLICATIONS:

There are no known relevant strategic considerations in relation to this matter.

SUSTAINABILITY IMPLICATIONS:

- **Environment**
There are no known significant environmental implications associated with this proposal.
- **Economic**
There are no known significant economic implications associated with this proposal.
- **Social**
There are no known significant social implications associated with this proposal.

FINANCIAL IMPLICATIONS:

The only financial consideration for Council in relation to this matter is the cost of advertising which is likely to be in the vicinity of \$300.

SUMMARY:

Assuming that council approves of the road closure and knowing that the road reserve is fairly heavily vegetated in some areas and the fact that it serves little, if any broader public benefit or use, Orton Road should be permanently closed in accordance with the provisions of the Land Administration Act 1997.

VOTING REQUIREMENTS

Simple Majority Required

MANEX RECOMMENDATIONS***That Council;***

- 1. Acknowledge the correspondence of Mr David Glasfurd in relation to issues concerning Orton Road;***
- 2. Acknowledge the objection of Mr Andrew Nixon and Mr Shane Vanzetti to have Orton Road closed permanently;***
- 3. Proceed to advise the Department of Lands of councils' direction to close the part section of Orton Road that is in question.***

10.2 SMALL PRODUCTION BREWERY LOT 212 MELBOURNE STREET MOORA

FILE REFERENCE: TP/PA26/1617

REPORT DATE: 31 January 2018

APPLICANT/PROPONENT: Peter Derrick

OFFICER DISCLOSURE OF INTEREST: Nil

PREVIOUS MEETING REFERENCES: 24/5/17 (67/17)

AUTHOR: Peter Williams, Manager Development Services

ATTACHMENTS: Nil

PURPOSE OF REPORT:

For Council to consider application by Peter & Shirley Derrick (Proponents) to develop a small production brewery at their property located at Lot 212 Melbourne Street, Moora. The Proponents are requesting Council to issue them with a Section 40 under the Liquor Control Act 1988.

BACKGROUND:

Lot 212 Melbourne Street is located in the Industrial Zone for which the Objectives are:

- (a) to provide for the needs of industry to support the community.
- (b) to provide appropriate buffers between industry and adjacent land uses, so as to avoid land use conflicts.
- (c) to provide landscaped buffers along the branch of the Moore River to the established industrial area.
- (d) to avoid direct discharge of stormwater drainage or the discharge of any deleterious substances into the branch of the Moore River.
- (e) to avoid non-industry related uses establishing in the industrial area.

Development Requirements:

- (a) the first 5 metres of the front setback on any lot shall be landscaped to the satisfaction of the local government. Where a lot has frontage to 2 streets the local government may vary the landscaping requirement only where the setback is reduced in which case the whole of the setback so reduced shall be landscaped to the satisfaction of the local government.
- (b) prior to the issue of developmental approval for an industry in the Industrial zone, the local government will ascertain the appropriate buffer for that industry, and such industry may only be granted developmental approval if the relevant buffer can be accommodated wholly within the zone.
- (c) in considering proposals for industries which would generate industrial liquid, solid or gaseous wastes the local government may refer such proposals to the Department of Environment and Conservation, and the granting of developmental approval for such industries shall be subject to wastes being treated and disposed of in accordance with advice/guidelines received.

Small Production Brewery is a use that is not defined under the Shire of Moora Town Planning Scheme which allows Council discretion to decide whether the use is appropriate for the Industrial Zone. Point to note a Tavern is not permitted in the Industrial Zone

A Local Government Authority's town planning scheme serves as the most important tool in shaping a community's liquor environment outside of the *Liquor Control Act 1988*.

An application for a liquor licence can't be approved by the Department of Racing, Gaming and Liquor if local government planning approval has not been granted, through provision of a Section 40 Approval.

In accordance with sections 39 and 40 of the Act, an applicant for a licence is required to submit local government certificates demonstrating compliance with:

- the Health Act;
- the Local Government Act;
- the Local Government (Miscellaneous Provisions) Act;
- any other written law relating to sewerage and drainage; and
- specific town planning scheme matters.

Section 39 and 40 certificates apply to:

- the granting or removal of a licence;
- the altering or redefinition of a venue;
- an application for an alfresco area; and
- applications for 'liquor without a meal' permits.

The licensing authority has the discretion to waive the requirement for a local government certificates to accompany an application during the licensing process.

However, an applicant would still have to obtain the relevant approvals from the local government authority prior to proceeding with any development and the applicant is still bound by local government authority health and planning requirements.

COMMENT:

The Proponent Mr Derrick requires a Section 40 approval from the Shire of Moora for his development to proceed through the application stage with the Department of Racing, Gaming and Liquor

The Industrial Zone as the zone objectives state is basically for industrial purposes it is not designed for food production. If approval is permitted the proponent would have to be aware of this and take the necessary steps to dust proof any food production area.

Council needs to decide whether this development is appropriate for this Zone.

This development has been advertised to the public and received one objection at the time and which was later withdrawn. No other objections were received.

POLICY REQUIREMENTS:

There are no known policy implications for this item.

LEGISLATIVE REQUIREMENTS:

Liquor Control Act 1988 (Section 40)

Certificate of planning authority as to whether use of premises complies with planning laws

- (1) An application made to the licensing authority for the grant or removal of a licence, or for a change in the use or condition of any premises must be supported by a certificate from the authority responsible for planning matters in the district in which the premises to which the application relates are situated, or are to be situated, unless the licensing authority otherwise determines.
- (2A) The certificate referred to in subsection (1) is not required to be provided at the same time as the application but the application cannot be granted until the certificate has been provided to the licensing authority, unless the licensing authority otherwise determines.
- (2) A certificate referred to in subsection (1) shall state that the proposed use of the premises —
 - (a) will comply with the requirements of the written laws relating to planning specified; or
 - (b) would comply with the requirements specified if consent were to be given by a specified authority, if it is known whether that authority will give the consent, and what specified conditions or specifications should be, or are likely to be, imposed; or
 - (c) will not comply with the requirements specified for the reasons specified.
- (3) In this section —
specified means specified in the planning certificate.
- (4) The licensing authority may, where it is satisfied that it is desirable to do so, impose a condition on a licence relating to the submission, or further submission, to the licensing authority of a certificate referred to in subsection (1).
