BUSH FIRES ACT 1954 (as amended)

Notice is hereby given to all landowners/occupiers within the Shire of Moora that you are required on or before the 1st November annually to comply with the directives to reduce the outbreak, spread and extension of bush fire and maintain it at that standard until 29th March annually under Section 33 of the Bush Fires Act 1954.

Weather conditions can have an impact on how smoke from your burn will affect your neighbours. On days when the upper layer of the atmosphere is warmer than the air at ground level, smoke can be trapped under an inversion layer and can take a long time to disperse.

Always check with the Bureau of Meteorology to make sure they have not issued a haze alert at www.bom.gov.au and check the weather conditions in your local area.

Smoke across roads is also your responsibility, please be aware of the weather conditions on the day. You could be liable and prosecuted if the smoke emitting from your fire is a contributing factor to a traffic accident.

Be a good neighbour; always give your neighbours plenty of notice of your intention to burn. This will give them time to get the washing off the line or make arrangements for any person with respiratory issues to be relocated from the area to ensure they are not badly affected by smoke.

www.emergency.wa.gov.au

Register your burn with DFES

Call the DFES Communication Centre on **(08) 9395 9209** to register your burn. This will prevent firefighters from being called out if smoke is reported.

Total Fire Bans may be declared by the Department of Fire & Emergency Services (DFES) when severe weather conditions are forecast or widespread fires are stretching resources. When a Total Fire Ban is declared, it is illegal to do anything that may start a fire. Total Fire Bans will be featured on:

- DFES and Emergency WA websites;
- DFES Facebook and Twitter;
- Broadcast on ABC local radio 531 AM
- Via DFES Total Fire Ban Hotline 1800 709 355

Harvest and Vehicle Movement Bans must be imposed by a local government when the fire behaviour conditions reach a certain level.

They are also imposed when the Chief Bush Fire Control Officer is of the opinion that the use of engines, vehicles, plant or machinery during the prohibited or restricted burning times, or both, is likely to cause a fire or contribute to the spread of a bushfire. If a Harvest and Vehicle Movement Ban is declared it is broadcast on ABC 531 AM and via SMS.

During a Total Fire Ban or Harvest & Vehicle Movement Ban you are not allowed to light, maintain or use a fire in the open air, or carry out any activity in the open air that causes, or is likely to cause a fire.

This includes a prohibition on the use of engines, vehicles, plant or machinery likely to cause or be conducive to the spread of a bush fire.

You could be fined up to \$25,000 and/or jailed for 12 months if you breach a ban.

If a Harvesting and Vehicle Movement ban has been imposed, all persons registered for SMS will be sent a text message advising of details.
